

ANCHORA

Part of the fixed anchor range from Lyon Equipment

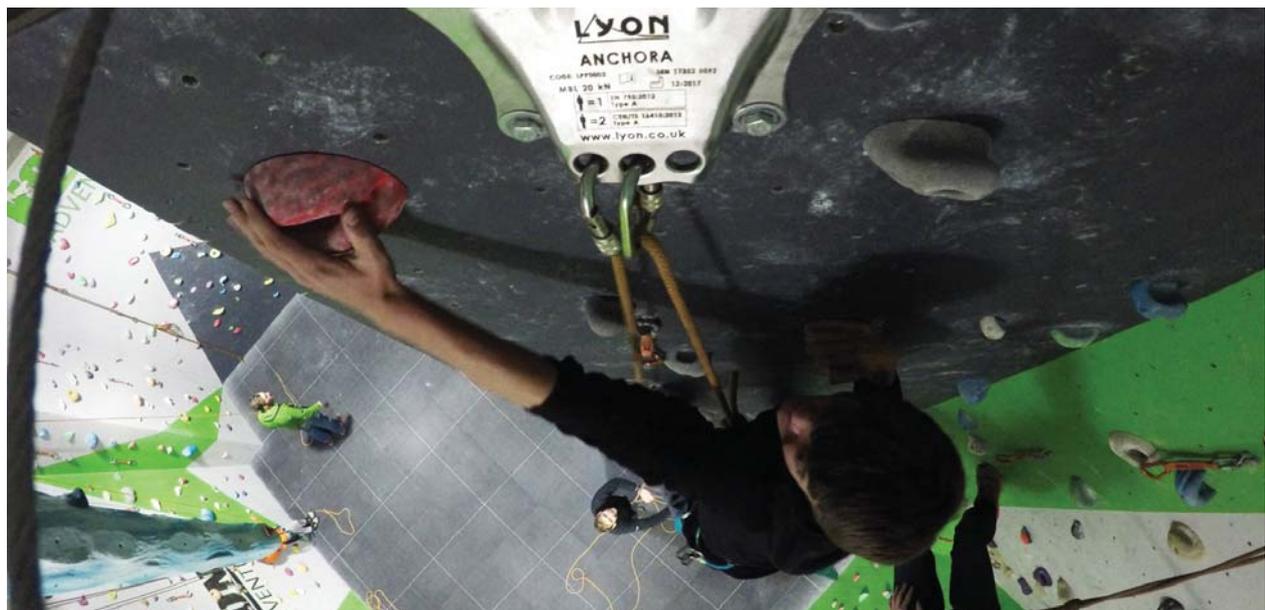

The Lyon ANCHORA is an anchor device designed specifically with climbing walls and technical training centres in mind.

With multiple attachment points and a smooth bearing surface, this anchor allows for many different connecting and loading configurations whilst minimising wear on the connectors themselves.

[See overleaf for detailed product features](#)

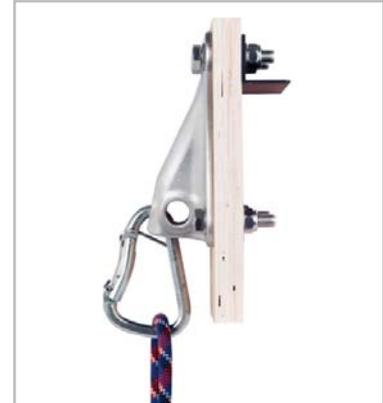

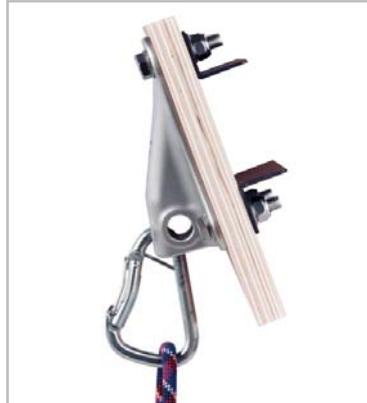

CODE	CONFORMITY	MATERIAL(S)
LPP0002	ANCHORA	EN 795:2012 type A, PD CEN/TS 16415:2013 type A

At Lyon Equipment, we design, manufacture and supply high quality and innovative, adventure, work at height and specialist rescue equipment - delivering expert advice on all our products and their applications

DESIGNED IN THE UK

Product features:

- Five attachment points for multiple connecting and loading configurations
- Smooth bearing surface on attachment points minimise wear on connectors
- Design allows positioning of connectors and rope away from the structure - prolonging the life of the rope, connectors and structure surface
- Connectors can be replaced independently of the ANCHORA
- Large connectors can be held captive once the ANCHORA is fitted, removing the need for captive bar versions
- The ANCHORA features no welded joints or moving parts
