

# REACH POLE

Part of the rescue equipment range from Lyon Equipment

The Lyon REACH POLE is primarily intended to aid the remote connection of the Lyon PICK OFF RESCUE KIT to a fallen worker.

It is especially useful in situations where the casualty is suspended from a deployed fall arrest lanyard, providing the option for recovery without the rescuer having to descend to the casualty.

[See overleaf for detailed product features](#)

CODE		SIZE
LSYNRP MK2	REACH POLE	3.8mtrs (extended length)
LSYNRP HOOK MK2	Replacement hook	N/A
