

FIBRELIGHT LADDER

Part of the flexible sided ladder range from Lyon Equipment

The FIBRELIGHT LADDER is lightweight, compact and makes virtually no noise when deployed.

Constructed from textile sides and carbon fibre rungs, they are less damaging to delicate surfaces than wire sided ladders.

[See overleaf for detailed product features](#)

CODE		LENGTH	COLOUR SIDE / RUNG	MATERIALS
Fibrelight Ladders - 30cm rung spacing - specialist ladder suitable for occasional lightweight use - complete with bag and connector

At Lyon Equipment, we design, manufacture and supply high quality and innovative, adventure, work at height and specialist rescue equipment - delivering expert advice on all our products and their applications

MADE IN THE UK

Storage Bag

Single Anchor Point with Maillon Rapide

Product features:

- Easy to rig
- Compact for easy storage
- Non-metallic ladder - no parts to corrode
- Quieter than metallic ladders
- Less damaging to delicate surfaces
- Lighter than the Lyon COMPACT or WIDE LADDERS
- Can be ordered by the metre (up to 20 metres)
- Complete with bag and stainless steel connector
- Black, yellow and red side tapes available
- Maximum rated load of 120kg

Standard FIBRELIGHT LADDERS are supplied with a single anchor point and Maillon Rapide at the head, making them unsuitable for connection to other ladders to increase the overall length. FIBRELIGHT LADDERS can be made to customer specified lengths (20 metres max).

Note: Textile ladders are recommended for lightweight, occasional use only. For high loads and/or intensive use, we recommend our COMPACT or WIDE wire sided ladders.
